Ducati Riding Academy

- › **DRE Racetrack:** the DRE course for those who want to experience the thrill of the track.
- › Didactic, fun and adrenaline combine within different courses depending on the level of experience: Track Evo, Track Evo2 and Track Master. The Panigale family is the great protagonist of this format, with Panigale V2 for the Track Evo and Track Evo2 courses and Panigale V4 S for Track Master.
- › Finally, the Racetrack One to One, which is divided into three categories: One to One V4 S, One to One V4R and One to One Superleggera V4.

- › **DRE Track Warm Up:** the course focuses on riders who wish to learn the basics of riding between the kerbs. The format begins with a theoretical briefing followed by a series of exercises in the paddock.
- › The subsequent on-track training is divided into five sessions; the first is a warm-up lap to familiarize with the track while riding a model from the Ducati range (excluding the Panigale family). The following four sessions are instead carried out with the Panigale V2, the ideal Ducati for a track debut.

Ducati Riding Academy

- > **DRE Road:** this is the DRE Academy course for everyone, whether you want to learn the correct riding techniques from our instructors, or whether you want to test the range or a specific Ducati model (with the exception of the Panigale family) and perform the exercises on different models, discovering the qualities of each one and the latest generation of Ducati safety systems.
- > You will use the track to simulate real road conditions and carry out specific exercises with all the safety parameters that only a racetrack can guarantee.

- > **DRE Rookie** is the DRE Academy course dedicated to young bikers, aged 18 to 24, and to those who drive depowered bikes in possession of an A2 license.
- > The team of professional instructors will teach participants the tricks of real riders to acquire, develop and improve a ride that is safe and fun.
